**1. NATURE OF BUSINESS AND GOING CONCERN**

Alexandria Minerals Corporation (the "Company" or "Alexandria") is engaged in the acquisition, exploration and development of mineral resource properties in Canada. The Company is in the process of exploring, and has not yet determined whether there is an economically viable ore deposit on its properties. The Company was incorporated on May 27, 2002. To date, the Company has not earned revenue from its mineral properties. The Company's common shares are listed on the TSX Ventures Exchange under the symbol AZX, on the Frankfurt Stock Exchange under the symbol A9D and on the Pink Sheets USA under the symbol ALXDF. The primary office is located at 1 Toronto Street, Suite 201, Toronto, Ontario, M5C 2V6.

The unaudited condensed interim financial statements were approved by the Board of Directors on March 31, 2014.

In order to meet future expenditures and cover administrative costs, the Company will need to raise additional financing. The Company has had recurring losses and will require additional financing to fund its continuing exploration efforts. Although the Company has been successful in raising funds to date, there can be no assurance that adequate funding will be available in the future, or available under terms favourable to the Company. These unaudited condensed interim financial statements have been prepared on a going concern basis that assumes the Company will be able to continue to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period.

In the event the Company is not able to obtain adequate funding, there is uncertainty as to whether the Company will be able to maintain and complete the acquisition and development of its property interests. These circumstances may cast significant doubt as to the Company's ability to continue as a going concern and ultimately the appropriateness of the use of accounting principles applicable to a going concern. These unaudited condensed interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities that would be necessary if the Company were unable to obtain adequate financing. Changes in future conditions could require material write downs of the carrying values of certain assets.

**2. SIGNIFICANT ACCOUNTING POLICIES**

*Statement of compliance*

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of March 31, 2014, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended April 30, 2013, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending April 30, 2014 could result in restatement of these unaudited condensed interim financial statements.

**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

*Change in accounting policies*

IFRS 10, Consolidated Financial Statements ("IFRS 10"), provides a single model to be applied in the control analysis for all investees, including entities that currently are special purpose entities ("SPEs") in the scope of Standards Interpretation Committee-12, Consolidation - Special Purpose Entities ("SIC-12"). In addition, the consolidation procedures are carried forward substantially unmodified from IAS 27 (2008). At May 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

IFRS 11, Joint Arrangements ("IFRS 11"), introduces new accounting requirements for joint arrangements, replacing IAS 31, Interests in Joint Ventures. It eliminates the option of accounting for jointly controlled entities by proportionate consolidation. At May 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

IFRS 12, Disclosure of Interest in Other Entities ("IFRS 12"), was issued by the IASB on May 12, 2011. The new standard includes disclosure requirements about subsidiaries, joint ventures and associates, as well as unconsolidated structured entities and replaces existing disclosure requirements. At May 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

IFRS 13, Fair Value Measurement ("IFRS 13"), was issued by the IASB on May 12, 2011. The new standard converges IFRS and US GAAP on how to measure fair value and the related fair value disclosures. The new standard creates a single source of guidance for fair value measurements, where fair value is required or permitted under IFRS, by not changing how fair value is used but how it is measured. The focus will be on an exit price. At May 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements, however new or enhanced disclosures are required and can be found in note 11.

In addition, there have been amendments to existing standards, including IAS 27, Separate Financial Statements ("IAS 27"), and IAS 28, Investments in Associates and Joint Ventures ("IAS 28"). IAS 27 addresses accounting for subsidiaries, jointly controlled entities and associates in non-consolidated financial statements. IAS 28 has been amended to include joint ventures in its scope and to address the changes in IFRS 10 to IFRS 13. At May 1, 2013, the Company adopted these amendments and there was no material impact on the Company's unaudited condensed interim financial statements.

IAS 1, Presentation of Financial Statements, has been amended to require entities to separate items presented in Other Comprehensive Income ("OCI") into two groups, based on whether or not items may be classified in the future. Entities that choose to present OCI items before tax will be required to show the amount of tax related to the two groups separately. At May 1, 2013, the Company adopted this pronouncement and there was no material impact on the Company's unaudited condensed interim financial statements.

*New standards not yet adopted and interpretations issued but not yet effective*

There are no relevant changes in accounting standards applicable to future periods other than as disclosed in the most recent annual financial statements as at and for the year ended April 30, 2013.

**11. FAIR VALUE MEASUREMENTS**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

(a) Assets and liabilities measured at fair value on a recurring basis:

<b>As at January 31, 2014</b>	<b>Quoted prices in active markets for identical assets (Level 1)</b>	<b>Significant other observable inputs (Level 2)</b>	<b>Significant unobservable inputs (Level 3)</b>	<b>Aggregate fair value</b>
